AMF-BRUNS SWIVEL LIFT BSL 350

MAN TGE

Swivel lift folded back in a space-saving way.

Lowered lift, ready for wheelchair access.

The AMF-Bruns swivel lift BSL 350 in lifting operation.

THESE FACTS MAKE ALL THE DIFFERENCE

- » The BSL 350 is operating successfully in innumerable vehicles in Germany and abroad for more than 30 years now
- » Lift can be swivelled 2 x 90°
- » Platform can be accessed directly from pavement
- » Minimum space requirement behind the vehicle. Easy to swivel in and out even under narrow traffic conditions
- » Lifting and lowering operations are carried out averted to the vehicle's rear edge to prevent foot entrapment
- » Due to its compact construction, the BSL 350 does only need minimum space in the passenger cabin whilst in non-operating state
- » Two roll-off stops and handrails ensure safe lifting and lowering operation
- » Robust, bearing-supported lifting unit; absolutely maintenance-free as well as weather-proof for maximum life-time
- » An additional lift locking device at the vehicle floor ensures rattle-free driving
- » Manual pump for emergency operation
- » Hydraulic power pack integrated in lifting unit:
 - No additional space loss in the passenger cabin
 - Easy to install
- » Meets EN 1756, II requirements
- » Compatible with EMC in accordance with the EU legislation

TECHNICAL DATA

» SWL	350 kg	» Lifting operation	Hydraulic power pack
» Platform size	Approx. 840 x 1.200 mm	» Power	Electro-hydraulic from battery, 12 V; strong, low-noise power pack integrated in lifting unit
» Unladen weight	Approx. 150 kg	» Swivel devices	Dust-proof enclosed; splash-proof; with roller bearings and permanently lubricated
» Lifting time	Approx. 10 sec	» Lifting unit	Maintenance-free roller guides – no sliding friction!
» Lowering time	Approx. 8 sec		
» Control	By push buttons		
» Lowering operation	By unladen weight
