SMARTFLOOR ALUMINIUM FLOOR SOLUTION

easy - fast - flexible - safe

Smartfloor allows a quick and flexible configuration of the vehicle with single seats, wheelchairs and stretchers.

Tomorrow's safety today!

Tip & fold seats are available in different upholstery options.

The patented quick-release Smartleg (M1) is simple, safe and flexible.

M1 seats can be fitted easily and safely even above the wheel arches.

MAXIMUM SAFETY

- » Smartfloor consists of various aluminium profiles. These are securely mounted in the vehicle.
- » Smartfloor meets the high requirements of the EEC directive 76/155 for M1* tested seats in vehicles of all major makes.
- » In combination with tested quick-release Smartlegs and the respective M1* tested seats, Smartfloor withstands forces of approx. 3,500 daN per seat, which means more than 10,000 daN for a row of 3 seats.
- » Smartfloor in combination with the AMF-Bruns PROTEKTOR occupant & wheelchair restraint system passes all requirements of ISO 10542 and DIN 75078 effortlessly and sets international standards in terms of safety.
- » Smartfloor is individually planned and allows unlimited flexibility in the arrangement of individual seats and wheelchairs.

* M1 approved vehicles: max. 8 single seats + driver
