„TWISTER“ SWIVEL SEAT

Innovative swivel seat console for the passenger seat

With its flat seat cushion, the Smartseat Ortho enables easy moving from the wheelchair into the vehicle.

Individually adjustable swivel angle up to a maximum of 90° rotation.

Comfortable handling – easier entry and egress into and from the vehicle

THESE FACTS MAKE ALL THE DIFFERENCE

- » Made in Germany
- » Easier entry and egress into and from the vehicle; even when moving from the wheelchair into the vehicle seat
- » Swivels out automatically with gas strut support (Easy-Locking system)
- » Easy and comfortable handling
- » Seat can be easily moved forwards and backwards for more seating comfort
- » Slim construction enables it to swivel out even in vehicles with limited space
- » Individually adjustable swivel angle
- » Easy mounting
- » Durable, robust and maintenance free
- » Static and dynamic crash tests according to latest regulations (ECE R14)
- » Patent pending
