AMF-BRUNS CASSETTE LIFT K70

The ultra-slim AMF-Bruns cassette lift for the side sliding door

The lateral access with the flat side edge of the lifting platform saves space when driving up with the wheelchair.

The ultra-slim K70 cassette lift combined with the vehicle heightening offers the best possible ground clearance.

THESE FACTS MAKE ALL THE DIFFERENCE

- » Load capacity 300 kg, complies with EN 1756, II
- » Ultra-slim design (70 mm) guarantees ultimate ground clearance
- » Illuminated controls, waterproof and shockproof
- » Automatic roll-off barrier (also operates on uneven roads and snow)
- » Powerful, silent running function ensures smooth operation of the lifting platform
- » Large lifting platform with side access; also suitable for large electric wheelchairs
- » Fully closed stainless steel cassette offers safe protection of the lift system, even in extreme weather conditions
- » No changes to the car body necessary
- » Vehicle interior remains unchanged
- » Vehicle heightened by approx. 55 mm without impairing driving comfort
- » Manual emergency operation with hand pump
- » Vehicle raised by approx. 55 mm, without compromising ride comfort
- » Volkswagen has issued letters of non-objection (LONO) for the installation of the lift and the necessary raising of the vehicle
- » EMC tested according to EU regulations

TECHNICAL DATA

» Height	70 mm	» Deploying/ stowing	approx. 12 sec.
» Load capacity	300 kg	» Control	By push buttons
» Platform size	approx. 760 x 1,200 mm	» Power	Lifting and lowering electro-hydraulic 12 V; deploying and stowing by rack and pinion drive 12 V
» Unladen weight	approx. 170 kg	» Optional	Bluetooth remote control including app operation (iOS and Android)
» Lifting time	approx. 7 sec.		
» Lowering time	approx. 7 sec.		

MAXIMUM SAFETY

- » Automatic roll-over flap prevents feet from being trapped when the platform is lifted
- » Fully automatic roll-over protection barrier
- » Two LED flashing lights that switch on automatically to warn in poor visibility conditions
- » Safety switches prevent incorrect operation while driving
